Overview

As you know, the City of Eagle Lake is partnering with Blue Earth County to undertake the reconstruction of Agency Street (County State Aid Highway 27). The project includes complete street and utility reconstruction from Thomas Drive to Le Ray Avenue.

Project Timeline

The City's and County's contractor, Dirt Merchant Inc. (DMI) completed most of the construction last fall. Since then, DMI has been working on the project intermittently to complete miscellaneous items of work needed to finalize the project. DMI plans to return to the project to address sidewalk and topsoil settlements when the expected weather conditions become appropriate for planting grass. These and other bare areas will be reseeded at that time.

You may have seen Peters Lawn Service arrive on the project to begin spraying weeds and fertilizing the grass that has germinated within the project limits. Further lawn treatment of this type will be applied in the Spring of 2023 and beyond as necessary to help the grass establish. Going forward, please let us know in advance if you have concerns about this work because the schedule depends on weather conditions and individual notifications for each treatment will not be made.

Please remember that turf establishment takes time and your help with watering and mowing will improve the process.

Updates

Informational social media updates and newsletters will be sent periodically throughout the project. If you have questions or concerns at any time, please contact Joe Smith using the information listed. For more information and FAQs, please visit the following websites:
